		through an assessment on <i>Paradise Road</i> .	
OCMP	ATKINSON	Students are beginning 3D modelling and animation topic. There are a list of videos I have made that students will be accessing – if they are unable to access a computer – they will be focusing on the artists / research sides of the project. If things are still difficult they will be focusing on coding	
OMDA1A	PRICE	Students have been focusing on their practical component (wooden table). They will have a theory assignment to complete if we close. This will be introduced to students in preparation for a possible closure.	Daymap
OMDB1A	KLEINIG		
OSCA1A	WOODS	Have been concentrating on the practical component to date therefore they will have a substantial theory to complete should we close. All has been placed on DAYMAP.	Daymap
	HAHN	Students are working on their solo performance pieces and learning Greensleeves using multiple dynamics, correct pitch, tempo and rhythm. Students will be told today that they will video record their performances. Students are also working on theory learning major and minor scales, chords, key signatures, rhythm- I am looking at an online	Daymap Teams AMEB website

		resource to deliver this as well.
